## **PRACTICE - I**

### **1. Title of the practice: Awakening the people about education through religions and spiritual sermons (educational awakening campaign)**

#### **2. Goal:**

Social studies education develops right from kindergarten and into higher education. College to help students understand their place in the world. Social studies teach children their roles and responsibilities particularly in relation to social and civic affairs. It helps students develop critical thinking abilities, prepares them to participate competently and productively as concerned spiritual personalities and teaches them to address societal and global concerns using literature technology and other identifiable community resources. Social studies include historical, geographical, political, social, cultural, economical and regional civics and it is an integral part in ensuring well-rounded education in the awakening gathering. Social studies educates students on citizenship providing them with the knowledge, skills and attitudes that will help them become competent and responsible citizens who are informed, thoughtful, participate in their community and exhibit moral and civic virtues.

#### **3. The context**

Our college is situated in a rural; educationally backward with religions orthodox surrounding area, due to such traditional situation, our educational goal is trend to make aware the society for education. Many facilities are not available in the rural area. Most of the people especially guardians are unaware of the education. People give the secondary importance for the education. Misunderstanding of education spread over here, so the most of the people hesitate for education. Accounting of all these things our college has arranged the awakening programmes. This is the only concept which will educate and motivates the people for the primary to higher education.

In the rural area many guardians do not allow the girls for education. During the adolescent position they try to marry the girls. Naturally many obstacles are there in the way of girl's education.

But for the complete development of the society girl education is important food, clothes and shelters are the fundamental needs of the human being. Also education is equivalent to the basic needs.

All class and traditional people must aware of the education for the development of the modern society. Our college tries to arrange the various awakening programmes to imbibe the importance of education on the mind of people.

#### **4. Implementation:**

For the awakening of the people in the area the college has been organizing various speeches programmes and lectures of eminent social thinkers and spiritual persons, since Dec.-2009

The first such type of programme was organized from 27<sup>th</sup> Nov. 2009 to 03<sup>rd</sup> Dec. 2009. Near about 2000 people from seven to eight villages were participated in this first gathering. The religious personalities well known for their preaching through the religious practice of the tradition called “kirtan” like Narayan maharaj Pusadkar, Achyat mahjaraj Dastapurkar, Bhagwan Gadade maharaj alandikar, Vijayanand Supekar maharaj, gave there sermons (kirtanas)

**The details of these programs is as follows : Table No 7.3.1(A)**

**Well-known preacher shri Satyapal Maharaj participants listning the preaching/ sermon**

At the beginnig of this practice the nature of the programme was religious and spiritual but gradually we have diverted it towards social and educational awareness. We have taken the advantage of people’s attachment to the religious practice to awaken them about the importance of education in the life.

## 5. Evidence of successes

The main motto of organizing awakening programme is to make aware the people for education. Many comprehensive purposes of such programmes are 1. Awareness of education 2. Eradication of castes and traditions 3. To Arrange self help programmes 4. Cleanliness campaign and many other such programmes are implemented.

Our college is surrounded by 30-40 villages depending for education on our college. The teachers give the detail guidance to the students so the old scenario is gradually changing. We continuously trying to make the students of modern view for higher education even after high school education young generation was far away from the college degree education and also post-graduation education

Our attempts are now a day's resulting into the such fruits as growth in enrollment of the students.

### **6. Problems Encountered and Resources Required:**

Following problems and difficulties are encountered by the college for the implementation as this practice.

1. As the college is situated in rural area there are problems of electricity, in the programme.
2. To gather the people in one place needs publicity.
3. Management of food and water as per the number of people participation.
4. Management of seating facility for the big crowd of the people.
5. Lot of time and energy spent for the planning and implementation of the practice.

## **PRACTICE – II**

### **1. Title Of The Practice: To Increase The Strength Of Girl Students study progression of girls in higher education.**

### **2. Goal of practice:**

As the college is situated in rural area, the proportion of the girls in higher education is very low. So it was necessary to do something.

People in the area were not mentally ready to send the girls in the colleges for graduation. After the long study of people mentality about the early marriages of the girls, we realized the need to change the mentality of the people in area. They should be persuaded for the completion of the higher education. So we have started the practice with the goal to increase female accesses to higher education, and empowering girls through education, until the mentality of the people is not change the strength of the girl students will not increase.

### **3. The Context:**

In the rural area guardians are of very narrow minded thinking. Education is the basic window which gives the broad thinking and helps to develop the future ideas. But guardians load the responsibility of household and outside the house.

People are poor and hence they expect the earning work by their children. Guardian always hesitates for involving girls and boys in the extra educational activities and therefore they oppose many times for such activities. As they have poor economic conditions as well as lower thinking level. So that people are not ready to think many times beyond their position.

But our college is continuously making efforts to change the thinking and make all these things easy. We always ready to survive the ideal thinking and all those are possible by doing a little work by taking active participation in all activities. Boys and girls are equal as they have the natural differences but equal opportunities and all are depend on individual hard work and assessment of life.

Our college always provides the views and ideal, through such programmes.

#### **4. Implementation:**

We collect the data and information about the girl student in the college through the proper system.

With the help of data analysis, we plan for the counseling of the parents of the girl students by visiting them. Girl's students are made to realize the importance of higher education through various lectures of early marriage and discontinuing the education of their children. We try to satisfy the queries and doubt of the parents about the important of education.

We assure them the security of the girl students in the college. We provide financial assistance for the admission and examination fees to the girl students.

We provide study material, notes, and extra books, to them for the study. We also help them in travelling for their convenience.

**Participation of girl students in cultural activities**

**Girl students listening the speech**

#### **5. Evidence and Success:**

The aim of this practice is to increase the number of girls in higher education after the implementation of this practice the strength of girls in the college start to increase. The girls from the area are coming to the college for the higher education because of the better performance of

the girl students of the previous batches. Other girls are getting motivation for further studies. Many girls from the college are working on various posts at present.

**Table No 7.3.1(B)**

<b>Sr. No.</b>	<b>Year</b>	<b>No. Of graduate girl students</b>	<b>No. of P. G. Girl students</b>	<b>No of employed girl students</b>
1.	2011-12	36	-	-
2.	2012-13	27	-	-
3.	2013-14	28	-	-
4.	2014-15	58	-	-
5.	2015-16	55	-	-

### **6. Problems Encountered and Resources Required:**

Following problems are encountered for the implementation of this practice.

1. As the area is educationally and socially backward. The parents are not aware about the value of education.
2. There is the need of continuous counseling of the parents for sending girls to the college.
3. It is difficult to make the parents in the rural area to decide the marriage of girls after completion of education.
4. There is the need of assurance to the parents for the security of the girls in the college.
5. We have to face many questions by the parents about the increasing age of marriage, Expenditure on education, security of the girl, problem of travelling etc.
6. We have to visit every parent of girls continuously.

### **7. Notes:**

With the advent of services provided by the library it has become store house of knowledge and the most preferred dwelling place by the students and teacher community.
